**Before you invest in any fund, consider how the fund would work with your other investments and your tolerance for risk.**

The mutual fund is an alternative mutual fund. It is permitted to invest in asset classes or use investment strategies that are not permitted for other types of mutual funds. The specific strategies that differentiate this fund from other types of mutual funds include: increased ability to use derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies will be used in accordance with the fund's investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

### What does the fund invest in?

The fund seeks to generate positive total returns over a full market cycle by investing in long and/or short positions in equity securities, fixed income securities, commodities and currencies. The fund may invest, either directly or indirectly through derivatives, including futures, forward contracts, options and total return swaps. The fund may invest up to 100% of its assets in foreign securities, including up to 25% in emerging markets.

The fund's leverage is calculated as the sum of the following: (i) the aggregate market value of securities sold short; (ii) the value of indebtedness under any borrowing arrangements for investment purposes; and (iii) the aggregate notional value of the Fund's specified derivatives positions excluding any specified derivatives used for hedging purposes. The fund's aggregate gross exposure must not exceed 300% of its net asset value, calculated on a daily basis.

### How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

IA Clarington Investments Inc. has rated the volatility of this fund as **low to medium**.

Because this is a new fund, the risk rating is only an estimate by IA Clarington Investments Inc. Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to medium	Medium	Medium to high	High
-----	---------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the fund's returns, see the section "What are the Risks of Investing in this Fund?" of the fund's simplified prospectus.

### No guarantees

Like most mutual funds this fund doesn't have any guarantees. You may not get back the amount of money you invest.

**Who is this fund for?**

**Investors who:**

- Are looking for a global macro alternative mutual fund to hold as part of their portfolio;
- Want a medium to long-term investment;
- Can handle the volatility of stock, bond, commodity and currency markets.

This fund is not suitable for holding in a registered plan such as an RRRSP, RRIF, DPSP, RESP, RDSP or TFSA. Units of this fund are not qualified investments for these plans.

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**How much does it cost?**

The following tables show the fees and expenses you could pay to buy, own and sell Series I units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**

This series is sold with no sales charge. Any redemption fees will be set out in the agreement between you and IA Clarington Investments Inc.

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

The fund's expenses are made up of operating expenses and trading costs. The series does not pay a management or fixed administration fee. Because this series is new, its operating expenses and trading costs are not yet available.

**More about the trailing commission**

There is no trailing commission paid for Series I units of the fund.

**3. Other fees**

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
<b>Management fees</b>	Management fees are negotiated and paid directly by the investor or its agent, not by the fund, and will not exceed 2% of the net assets of the fund per annum.
<b>Short-term trading fee</b>	Up to 2.00% of the value of units you sell or switch within 30 days of buying them. This fee goes to the fund.
<b>Switch fee</b>	Your representative's firm may charge you up to 2.00% of the value of units you switch.
