How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

IA Clarington Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the section "What are the Risks of Investing in this Fund?" of the fund's simplified prospectus.

No guarantees

Like most mutual funds this fund doesn't have any guarantees. You may not get back the amount of money you invest.

*Distributions on this series are expected to include a return of capital, which can erode the value of your investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series L6 shares of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

The series is not available to new purchases under the Adviser Service Charge Option and is only available by switching from securities of another IA Clarington Fund under the same sales charge option.

If your redemption schedule has expired, we will automatically switch your investment to Series T6. Series T6 has the same combined management and administration fee, and no redemption fee.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Advisor Service Charge Option	Nothing	Nothing	IA Clarington Investments Inc. pays your representative's firm a commission of 3.0% of the amount you invest. The commission is not deducted from your investment. Your representative's firm pays IA Clarington Investments Inc. a redemption fee (calculated as a percentage of the amount invested) if you sell your investment within three years of purchase, or switch your investment to another sales charge option. If redeemed during: Year 1 - 3.00%; Year 2 - 2.50%; Year 3 - 2.00%; After Year 3 - Nil. If you switch to securities of another fund under the Adviser Service Charge Option, no redemption fee will be payable by your representative's firm.

If your investment in Series L6 is no longer subject to a redemption fee schedule, we may automatically switch you into elite pricing Series E6 when your investment reaches \$100,000, if at that time, Series E6 has a lower management fee.

If your investment no longer meets the eligibility threshold, we may switch your investment back into Series L6, which may have a higher management fee.

Please see **Switching Between Mutual Fund Series** under the heading "Purchases, Switches and Redemptions" of the Simplified Prospectus and speak to your representative for additional details.

We no longer pay trailing commissions to discount brokers.
