How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

IA Clarington Investments Inc. has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the section "What are the Risks of Investing in this Fund?" of the fund's simplified prospectus.

No guarantees

Like most mutual funds this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series T6 shares of the fund have performed over the past nine years. Returns are after expenses have been deducted. These expenses reduce the fund's returns. The performance of Series E6 and L6 shares would be similar to the performance of Series T6 but would vary as a result of the difference in the combined management and administration fees compared to Series T6 shares as disclosed in the fee decrease table under "Fund Expenses" below.

Year-by-year returns

This chart shows how Series T6 shares of the fund performed in each of the past nine calendar years. The fund dropped in value in four of the nine years. Best and worst 3-month returns

This table shows the best and worst returns for Series T6 shares of the fund in a 3-month period over the past nine years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

Who is this fund for?

Investors who:

- Seek dividend income and the possibility for capital appreciation*;
- Have medium risk tolerance;
- Plan to invest over the medium to long term.

*Distributions on this series are expected to include a return of capital, which can erode the value of your investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series E6, L6 and T6 shares of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

As part of the Program, we may automatically switch your investment in Series L6 and T6 into Series E6 when your aggregate eligible investment in IA Clarington Funds reaches \$100,000, if at that time, Series E6 has a lower management fee. Upon expiry of the redemption fee schedule, your investment will be switched to another series, under the Front End Option, at the same or lower fee.

If your aggregate eligible investment no longer meets the eligibility threshold, we may switch your investment back into another series, which may have a higher management fee. See the fee decrease table under "Fund Expenses" below.

Please see **Switching Between Mutual Fund Series** under the heading "Purchases, Switches and Redemptions" and "Fees and Expenses" of the Simplified Prospectus and speak to your representative for additional details.

	Annual rate (as a % of the fund's value)		
	Series E6	Series L6	Series T6
Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission), fixed administration fee and operating expenses.	2.06%	2.41%	2.46%

For every \$1,000 invested, this equals:	\$21.00	\$24.50	\$25.00

The table below sets out the combined management and administration fee decrease after automatic switch.

Investment	Series	Combined management and administration fee decrease (%)

\$100,000 (may be across aggregate eligible investments in IA Clarington Funds)	E6	L6 - 0.36%, T6 - 0.36%

More about the trailing commission

The rate depends on the sales charge option you choose. We no longer pay trailing commissions to discount brokers.

Upon the automatic switch of your investment, your representative may receive a higher trailing commission of up to 1.00% of your investment each year.
