### What does the fund invest in?

The fund aims to pay a guaranteed amount on its maturity date of June 30, 2030 (the "Maturity Date") with some potential for capital appreciation. It does this by investing in (1) units of another investment fund, IA Clarington Global Equity Exposure Fund, which provides exposure to global equity markets through the use of derivatives, (2) fixed income securities issued by the Canadian federal or provincial governments, and (3) cash equivalents. The portfolio manager allocates the assets based on a number of factors, including the remaining time to the Maturity Date, interest rates and equity market values. As the Maturity Date approaches, the fund will increase its investments in fixed income securities.

The charts below give you a snapshot of the fund's investments on April 30, 2023. If the fund invested in one or more mutual funds, the Investment mix chart shows the fund's proportionate sector allocation of the reference funds' investments and where applicable, the fund's direct investments. The Fund's investments will change.

### How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

IA Clarington Investments Inc. has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the section "What are the Risks of Investing in this Fund?" of the fund's simplified prospectus.

### Guarantees

Industrial Alliance Insurance and Financial Services Inc. has provided a guarantee to the fund that it will have enough assets to pay the highest of the following on its Maturity Date: the highest month-end series unit value during the period from the start date of the fund until the Maturity Date, which was \$16.3526 as at April 30, 2023, or the series unit value on the Maturity Date of the fund. This guarantee does not apply to the amount of any redemptions made before the Maturity Date. Redemptions made prior to the fund's Maturity Date are based on the series NAV on the date of redemption. For more information about the guarantee and the risks involved or the risk of an accelerated maturity date, please refer to the fund's simplified prospectus.

IA CLARINGTON TARGET CLICK 2030 FUND - SERIES A UNITS

**How has the fund performed?**

This section tells you how Series A units of the fund have performed over the past ten years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

**Year-by-year returns**

This chart shows how Series A units of the fund performed in each of the past ten calendar years. The fund dropped in value in four of the ten years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past ten years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

|                     | Return | 3 months ending  | If you invested \$1,000 at the beginning of the period |
|---------------------|--------|------------------|--|
| <b>Best return</b>  | 10.55% | January 30, 2015 | Your investment would rise to \$1,106                  |
| <b>Worst return</b> | -8.88% | April 29, 2022   | Your investment would drop to \$911                    |

**Average return**

A person who invested \$1,000 in Series A units of the fund 10 years ago holds today \$1,176, which represents an annual compounded rate of return of 1.63%.

**Who is this fund for?**

**Investors who:**

- Seek preservation of capital and the possibility for capital appreciation over a set period of time until the Maturity Date;
- Have low to medium risk tolerance and are able to accept some fluctuations in the fund's value in advance of the fund's Maturity Date;
- Plan to invest for a period of time consistent with the fund's Maturity Date.

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**How much does it cost?**

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**

Series A units are only available under the Front End Option. For information about the redemption fees payable when you redeem units purchased under the Deferred Sales Charge and Low Load Options, please see **Redemption Fees** under the heading "Fees and Expenses" of the Simplified Prospectus and speak to your representative for additional details.

| Sales charge option     | What you pay                   |                                      | How it works   |
|-------------------------|--------------------------------|--------------------------------------|--|
|                         | in percent (%)                 | in dollars (\$)                      |  |
| <b>Front End Option</b> | 0% to 5% of the amount you buy | \$0 to \$50 on every \$1,000 you buy | You and your representative decide on the rate. The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission. |

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As at March 31, 2023, the fund's expenses were 2.48% of its value. This equals \$24.80 for every \$1,000 invested.

|   | Annual rate (as a % of the fund's value) |

IA CLARINGTON TARGET CLICK 2030 FUND - SERIES A UNITS

**More about the trailing commission**

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you. IA Clarington Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose. On expiry of the redemption charge schedule applicable to units purchased under the Low Load Option or the Deferred Sales Charge Option, the rate will increase to the rate applicable to the Front End Option. We no longer pay trailing commissions to discount brokers.

| Sales charge option                 | Amount of trailing commission   |   |
|-------------------------------------|---|---|
|                                     | in percent (%)  | in dollars (\$)   |

**3. Other fees**

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

| Fee                           | What you pay  |
|-------------------------------|---|
| <b>Short-term trading fee</b> | Up to 2.00% of the value of units you sell or switch within 30 days of buying them. We may charge up to 2.00% of the value of units if there is a pattern of excessive redemptions/switches within 90 days of buying them. This fee goes to the fund. |
| <b>Switch fee</b>             | Your representative's firm may charge you up to 2.00% of the value of units you switch.   |

**What if I change my mind?**

**Under securities law in some provinces and territories, you have the right to:**

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory. For more information, see the securities law of your province or territory or ask a lawyer.
