What does the fund invest in?

The Fund's objective is to provide a consistent stream of income and capital appreciation by investing primarily, directly or indirectly through other mutual funds or exchange traded funds, in fixed income and equity securities from around the world. The Fund may also use derivatives to manage volatility. The Fund may invest up to 100% of its assets in foreign securities.

The charts below give you a snapshot of the fund's investments on January 12, 2022. The fund's investments will change.

Top 10 investments (January 12, 2022)

Because the fund is new, its top 10 investments are not available.

Investment mix (January 12, 2022)

Because the fund is new, its investment mix is not available.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

IA Clarington Investments Inc. has rated the volatility of this fund as **low**.

Because this is a new fund, the risk rating is only an estimate by IA Clarington Investments Inc. Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to medium	Medium	Medium to high	High
-----	---------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the Risks of Investing in this Fund?" and "Who Should Invest in this Fund?" sections of the fund's simplified prospectus.

No guarantees

Like most mutual funds this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed since its inception. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

We are unable to provide year-by-year returns because Series A units of the fund have not existed for a full calendar year.

Best and worst 3-month returns

We are unable to provide best and worst 3-month returns because Series A units of the fund have not existed for a full calendar year.

Average return

We are unable to show performance because this series is less than 12 months old.

Who is this fund for?

Investors who:

- Seek the possibility for income and potential for capital appreciation*;
- Have low risk tolerance;
- Plan to invest over medium to long term.

*Distributions on this series are expected to include a return of capital, which can erode the value of your investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Series A units are only available under the Front End Option.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Front End Option	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	You and your representative decide on the rate. The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

The fund's expenses are made up of the management fee, fixed administration fee, other operating expenses and trading costs. The series' annual management fee is 1.75% and the annual fixed administration fee is 0.15% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

We may automatically switch your investment in Series A, into elite pricing Series E when your investment reaches \$100,000, if at that time, Series E has a lower management fee.

If your investment no longer meets the eligibility threshold, we may switch your investment back into Series A, which may have a higher management fee. Please see *Switching Between Series* under the heading "Purchases, Switches and Redemptions" of the Simplified Prospectus and speak to your representative for additional details.

Combined management and administration fee decrease	
Series E	0.10%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you. IA Clarington Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment.

Sales charge option	Amount of trailing commission	
	in percent (%)	in dollars (\$)
Front End Option	1.00%	\$10 each year on every \$1,000 invested
