How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

IA Clarington Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to medium	Medium	Medium to high	High
-----	---------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the fund's returns, see the section "What are the Risks of Investing in this Fund?" of the fund's simplified prospectus.

No guarantees

Like most mutual funds this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series L units of the fund have performed over the past ten years. Returns are after expenses have been deducted. These expenses reduce the fund's returns. The performance of Series A and B units would be similar to the performance of Series L but would vary as a result of the difference in the combined management and administration fees compared to Series L units as disclosed in the fee decrease table under "Fund Expenses" below.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A, B and L units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Upon expiry of the redemption fee schedule, your investment will be switched to another series, under the Front End Option, at the same or lower fee.

1. Sales charges

Series B units are only available under the Front End Option. Series A and L are not available to purchases under the Deferred Sales Charge, Low Load and Advisor Service Charge Options and are only available by switching from securities of another IA Clarington Fund under the same sales charge option. For information about the redemption fees payable when you redeem units purchased under the Deferred Sales Charge, Low Load and Advisor Service Charge Options, please see **Redemption Fees** under the heading "Fees and Expenses" of the Simplified Prospectus and speak to your representative for additional details.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Front End Option	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	You and your representative decide on the rate. The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns. Series A and L have higher combined management and administration fees than Series B.

	Annual rate (as a % of the fund's value)		
	Series A	Series B	Series L
Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission), fixed administration fee and operating expenses. IA Clarington Investments Inc. waived some of the fund's expenses. If it had not done so, the MER would have been higher.	1.09%	1.10%	1.93%
Trading expense ratio (TER) These are the fund's trading costs.	0.01%	0.01%	0.01%
Fund expenses	1.10%	1.11%	1.94%
For every \$1,000 invested, this equals:	\$11.00	\$11.10	\$19.40

The table below sets out the combined management and administration fee decrease after automatic switch.

Investment	Series	Combined management and administration fee decrease (%)
Up to \$99,999	B	A - 0.31%
\$100,000 (may be across aggregate eligible investments in IA Clarington Funds)	B	A - 0.31%, B - 0.00%, L - 0.71%

IA Clarington Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. We no longer pay trailing commissions to discount brokers.
