[1] The information presented incorporates the applicable characteristics of the underlying mutual fund(s) that the Fund invests in which are listed under the Current Weightings table. The information presented is based on Current Weightings while reflecting data as of the previous quarter end or sooner.
[2] Excludes Other Assets less Liabilities. [3] Credit quality of debt instruments of the Fund through direct holdings and/or underlying funds. Credit ratings obtained from DBRS, Standard & Poor's or Moody's. DBRS rating or equivalent is presented. [4] The term "Investment Fund(s)", where applicable, refers to investment funds that are not managed by iA Clarington or an affiliate of iA Clarington.

The MER (est.) has been reduced by way of a management fee waiver. This waiver may be cancelled or changed in the future at IA Clarington's discretion.

‡‡The reduced MER (est.) is based on the reduced management fee and administration fee effective March 10, 2026 and include Independent Review Committee (IRC) and Director fees and taxes, where applicable. Please note the applicable tax rate may change over time and as a result, the actual MER may differ from the estimate provided. The new fees will not be fully reflected in the fund's actual MER until the MER for the period ending September 30, 2026 is published.
†Distributions ($/share) and Distributions ($/unit) are paid using a calculation rounded up to 5 decimal places. Distributions shown are rounded to 3 decimal places.

Elite Unified Portfolios are only available through Investia Financial Services Inc., iA Private Wealth Inc., and Richardson Wealth Limited.

Commissions, trailing commissions, management fees, brokerage fees and expenses all may be associated with mutual fund investments, including investments in exchange-traded series of mutual funds. Please read the prospectus before investing. Rates of return include changes in share or unit value and reinvestment of all dividends or distributions but do not account for sales, redemption, distribution, optional charges, or income taxes payable by any securityholder that would have reduced returns. Returns for more than one year are historical annual compounded total returns while returns for one year or less are cumulative figures and are not annualized. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The compound growth chart only illustrates the effects of a compound growth rate and is not intended to reflect future Fund values or returns. Performance data of different fund series may differ due to different fee structures and other reasons. When a material merger occurred, performance is measured from the merger date (Performance Start Date or PSD). Distribution payments are not guaranteed and may fluctuate. Distributions paid should not be confused with a Fund's performance, rate of return or yield. If distributions paid exceed Fund performance, your original investment will shrink. Distributions paid resulting from capital gains realized by a Fund and income and dividends earned by a Fund are taxable to you in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, you will have to pay capital gains tax on the amount below zero. A Fund's "yield" refers to income generated by its portfolio holdings, not return or the income paid out by the Fund. "Portfolio Yield" refers to the Fund's overall yield, not of each Fund series. Refer to the prospectus for details on each Fund series. U.S. dollar securities may not be held in Registered Plans, except TFSAs.
