Management Discussion of Fund Performance

The management discussion of fund performance for IA Wealth Enhanced Bond Pool (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 12-month period ended March 31, 2024. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

Investment Objective and Strategies

The Fund's objective is to generate regular income with the potential for modest long-term capital appreciation by primarily investing in Canadian fixed income securities.

The Fund's strategy is to invest primarily in Canadian fixed income securities. The Fund may invest up to 40% of its assets in foreign fixed income securities.

The Fund's Portfolio Manager is iA Global Asset Management Inc. ("iAGAM" or the "Portfolio Manager" or the "fund manager").

Risk

The overall risk of investing in the Fund remains as described in the prospectus.

The Fund is suitable for investors seeking income and the possibility for capital appreciation, with low risk tolerance and planning to invest over the medium to long term.

Results of Operations

The Fund's Net Assets increased by 50.8% or \$21.9 million during the period, from \$43.1 million on March 31, 2023 to \$65 million on March 31, 2024. This change in Net Assets resulted from an increase of \$21.7 million due to net sales, a decrease of \$1.6 million due to distributions and an increase of \$1.8 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 26.9% or \$10.6 million in comparison to the prior period, from \$39.4 million to \$50 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series B units of the Fund returned 2.3% for the 12-month period ending March 31, 2024. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's broad-based benchmark, the FTSE Canada Universe Bond Index, returned 2.1% for the same 12-month period. The comparison to this broad-based index has been provided to help you understand the Fund's performance relative to the general performance of the Canadian bond market. The Fund's benchmark, which is composed of the 75% FTSE Canada Universe Bond Index, 25% Bloomberg U.S. Aggregate Bond Index (CAD Hedged), returned 1.8% for the same period. This comparison to Fund performance is more useful, because it more closely reflects the asset classes in which the Fund invests. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

In recent quarters, expectations shifted away from the recessionary scenario that was consensus thinking through most of 2022 and 2023, given the strong rise in interest rates to control inflation. However, reaccelerating growth brought renewed inflationary pressures amid wage dynamics and the lingering pressures from post-pandemic excess demand. This resulted in the repricing of market

expectations for interest-rate reductions, which was lowered to three rate reductions expected for the year.

So far, Canada has avoided a recession owing to its booming demography, but economic momentum has been flat at best.

The rest of the world still faces the same challenges. The eurozone purchasing managers' indices (PMIs) still suggest that a recession is taking hold amid challenges such as high energy costs, waning consumer confidence and rising interest rates.

China's economic reopening also remains challenging, but recent figures for its manufacturing PMI, and new export orders in particular, suggest that the global economy may have found its footing and that demand for Chinese exports is about to pick up.

The Fund has a structural tilt towards lower-duration fixed-income assets, which contributed to performance over the period. The Fund's structurally overweight exposure to corporate bonds also contributed. Overall, the underlying funds contributed to performance over the period, particularly PIMCO Monthly Income Fund. The PIMCO fund's exposure to U.S. duration (sensitivity to interest-rate changes), corporate credit and emerging markets currencies helped performance. The Fund's exposure to IA Clarington Loomis Global Multisector Bond Fund also contributed.

The Fund's exposure to IA Clarington Core Plus Bond Fund detracted the most from performance over the period.

Recent Developments

The outlook for equity markets appears more optimistic owing to reduced odds of a recession. The outlook for fixed income is more neutral and even slightly cautious, and the fund manager expects fewer interest-rate cuts from the U.S. Federal Reserve than have been priced in, as well as historically expensive levels in high-yield bonds.

The Fund is structurally positioned with a lower duration and overweight position in corporate bonds relative to its peer category. However, the fund manager is reducing these structural tilts through tactical positions on long-term U.S. treasuries. The fund manager also has underweight positions in underlying funds that are more exposed to credit risk, preferring short-duration quality credit.

Effective October 31, 2023, the Fund commenced offering Series ETF units.

Effective April 1, 2023, the Portfolio Manager changed from Industrial Alliance Investment Management Inc. to iA Global Asset Management Inc.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the

IA Wealth Enhanced Bond Pool

"Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 12-month period ended March 31, 2024, the Fund did not pay brokerage commissions to iA Private Wealth Inc.

In order to avoid duplication of management fees, if a Fund invests directly in a Reference Fund managed by IA Clarington or an affiliate it may purchase Series I Securities (or the equivalent) of the Reference Fund and will not be charged a management fee or a fixed expense charge in respect of those securities. Alternatively, if Series I Securities (or the equivalent) are not purchased in these circumstances, we make sure that there is no duplication of management fees. In addition, if a Fund invests in another mutual fund, it will not pay duplicate sales charges or redemption fees with respect to the purchase or redemption by it of securities in the Reference Fund.

Certain of the Funds have established or may establish standard broker-dealer agreements with iA Private Wealth Inc., a subsidiary of Industrial Alliance and related company. Pursuant to applicable securities legislation, the Funds may rely on the standing instructions from the IRC with respect to one or more of the following transactions:

- (a) trades in securities of iA Financial Corporation Inc.;
- (b) investments in securities of issuers during, or for 60 days after, the period in which a related party dealer acts as an underwriter in the distribution of such securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund managed by IA Clarington.

The applicable standing instructions require that the above activities be conducted in accordance with IA Clarington policy and that IA Clarington advise the IRC of a material breach of any standing instruction. IA Clarington policy requires that an investment decision represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Funds.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

1 The per unit data is derived from the Fund's audited annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS Accounting Standards"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.

2 Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3 Distributions were paid in cash/reinvested in additional units of the Fund, or both.

4 Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees, excluding HST, for the Fund were 1.09% for Series B, 0.54% for Series F, 0.00% for Series I, 0.45% for Series W and 0.54% for ETF Series.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

IA Wealth Enhanced Bond Pool

March 31, 2024

- 5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.
- 6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.
- 7 Closing Market price for ETF Series is referenced from the closing market price on the last trading day of the period as reported on the Toronto Stock Exchange.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

The following is a breakdown of major services received by the Fund in consideration of the management fees for the period, as a percentage of the management fee:

Management Fees (%)

Series W	0.35	-	100
ETF Series	0.40	-	-

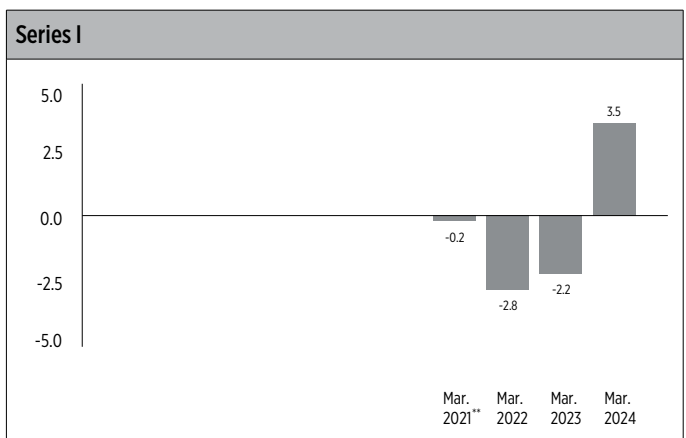

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

The FTSE Canada Universe Bond Index is comprised of Canadian investment grade bonds and has significantly different portfolio duration characteristics. The FTSE Canada Universe Bond Index consists of a broadly diversified selection of investment-grade Government of Canada, provincial, corporate and municipal bonds issued domestically in Canada.

The Bloomberg U.S. Aggregate Bond Index (CAD Hedged) represents securities that are SEC-registered, taxable, and dollar denominated. The index covers the U.S. investment grade fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities.

A discussion of the performance of the Fund as compared to the Benchmark Index is found in the "Results of Operations" section of this report.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
