Management Discussion of Fund Performance

The management discussion of fund performance for IA Clarington Loomis Global Allocation Fund (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 12-month period ended March 31, 2023. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

Series P, Series P6 and Series X of the Fund are closed to new investors. Investors who currently hold these series can purchase additional units. Series L, Series L5, Series L6, Series L8 and Series LX of the Fund are closed to new purchases.

Investment Objective and Strategies

The Fund's investment objective is to provide a consistent stream of income and capital appreciation.

The Fund's strategy is to invest primarily in equity securities, fixed income investments and money market instruments from around the world.

The Fund's Portfolio Manager is Industrial Alliance Investment Management Inc. ("IAIM" or the "Portfolio Manager"). Loomis, Sayles & Company L.P. ("Loomis Sayles" or the "fund manager") is the Portfolio Sub-Advisor.

Risk

The overall risk of investing in the Fund remains as described in the prospectus.

The Fund is suitable for investors seeking a flow of income and the possibility for capital appreciation, with a low to medium risk tolerance and planning to invest over the medium to long term.

Results of Operations

The Fund's Net Assets decreased by 8.6% or \$375.7 million during the period, from \$4,358.7 million on March 31, 2022 to \$3,983 million on March 31, 2023. This change in Net Assets resulted from a decrease of \$234.8 million due to net redemptions, a decrease of \$23.8 million due to distributions and a decrease of \$117.1 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund decreased by 7.9% or \$336.2 million in comparison to the prior period, from \$4,254.3 million to \$3,918.1 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series T8 units of the Fund returned -3.4% for the 12-month period ending March 31, 2023. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's broad-based benchmark, the MSCI AC World Index^A (CAD), returned 0.3% for the same 12-month period. The comparison to this broad-based index has been provided to help you understand the Fund's performance relative to the general performance of the global equity market. The Fund's benchmark, which is composed of the 60% MSCI AC World Index^A (CAD), 40% Bloomberg Global Aggregate Bond Index (CAD Hedged), returned -1.4% for the same period. This comparison to Fund performance is more useful, because it more closely reflects the asset classes in which the Fund invests. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

The market downturn early in the period reflected the challenging economic backdrop that had been in place since late 2021. Inflation rose considerably, led by energy, food, and housing costs. In the U.S., consumer prices reached their highest level in over 40 years.

All segments of the bond market posted gains in the fourth quarter, with Treasuries and credit sectors generating positive total returns. International bonds in general, and the emerging markets in particular, were especially strong thanks to the declining U.S. dollar and the headlines regarding China's likely economic reopening.

The first quarter of 2023 included broad trading ranges owing to market volatility. China ended its zero-COVID protocol, and the country's economic reopening boded well for global growth. However, focus quickly changed to the banking industry and liquidity concerns amid the failures of multiple banks.

The Fund's majority equity allocation contributed to performance as equity markets outperformed fixed income. Security selection in the industrials sector was the largest contributor to performance. Stock selection in the materials and financials sectors also contributed, as did a lack of direct exposure to the real estate and utilities sectors.

The most significant individual contributors included LVMH Moët Hennessy Louis Vuitton SE, Cummins Inc. and Linde PLC. LVMH is a global producer and distributor of luxury goods. Shares outperformed over the period owing in part to the company's pricing power, which helps insulate it from the broader economy. Cummins is the leader in designing, manufacturing and selling engines, related components and power systems for trucks and machinery. Shares outperformed following the company's quarterly earnings reports and strong third-quarter results reported by two of its largest customers. Linde is one of the largest industrial gases companies globally. Its shares performed well during the period.

In fixed income, the Fund's yield curve and duration (interest-rate sensitivity) positioning were the main contributors to performance. The yield curve graphically illustrates the yields and maturities of bonds of similar credit quality. Local-market positioning in the euro, British pound and Japanese yen also contributed, as did the Fund's allocations to sovereign bonds and consumer cyclical and energy companies.

In equities, the Fund's security selection in the information technology sector detracted from performance, as did its exposure to the consumer staples, energy and consumer discretionary sectors.

Individual detractors included Amazon.com Inc., Airbnb Inc. and Alphabet Inc. Amazon is well-positioned within e-commerce and Cloud computing, two large growth markets, but shares lagged following disappointing third-quarter earnings. Airbnb is an online marketplace for short-term stays and vacation rentals. Shares lagged as challenging economic conditions cast doubt on the health of the consumer. Alphabet, via its Google property, dominates the global search market. Shares underperformed on growing global recession concerns.

In fixed income, the Fund's allocation to the euro, Japanese yen and U.S. dollar detracted from performance, as did security selection in the communication services sector, transportation industry, and sovereign bonds. The Fund's overweight allocation to the communication services sector and banking and consumer non-cyclical companies detracted from performance. Individual detractors included DISH Network Corp., which significantly underperformed industry peers. Certain airline and transportation services holdings also detracted as the industry continued to face higher fuel prices that could not be fully passed along to consumers.

IA Clarington Loomis Global Allocation Fund

March 31, 2023

In equities, the fund manager initiated several positions, including JPMorgan Chase & Co., BlackRock Inc. and Schneider Electric SE. JPMorgan is a high-quality bank with multiple leading franchises. BlackRock is the world's largest asset management company and the largest provider of ETFs globally, which it sells under its iShares brand. Schneider Electric designs and manufactures energy and automation digital solutions. The fund manager believes the company continues to be well-positioned to benefit from multiple structural growth drivers, including digitization, energy efficiency, reshoring and electrification.

The fund manager increased and decreased positions within the Fund based on valuation and risk-reward profiles.

During the period, several equity positions were eliminated which included VeriSign Inc., Copart Inc. and HDFC Bank Ltd. Internet infrastructure provider Verisign was sold to allocate additional capital to higher-conviction holdings. Salvage vehicle remarketer Copart was sold owing to reduced confidence in its intrinsic value growth (a positive slope to free cash flow growth). A normalization of used car prices, lower volumes and fewer accidents were likely to result in lower operating margins. HDFC Bank, an Indian bank, was sold to fund higher-conviction businesses.

Recent Developments

Inflation appears to have peaked in major economies like the U.S. and Europe, but questions remain regarding the speed of deceleration. China's inflation remained remarkably low, but stimulus efforts could lead to higher inflation.

The fund manager believes the most likely scenario is that the U.S. and other developed economies will enter a downturn and possible recession within the next six months, and that the Fed will likely pause interest-rate increases at its meeting in May.

Corporate earnings are expected to contract in 2023. As financial conditions tighten, the fund manager anticipates an increase in the U.S. unemployment rate in the latter part of 2023. However, if inflation remains uncomfortably high despite coming off peak levels, the Fed may resume tightening towards the end of 2023.

In this challenging backdrop, the fund manager remains focused on investing in companies that appear poised to manage the current environment and generate longer-term value. In equities, periods of volatility may provide opportunities to build positions in high-quality companies at more-attractive valuations.

Effective June 1, 2022, IA Clarington no longer offers purchases under the deferred sales charge option, including the low load option ("DSC") in accordance with the decision of the Canadian Securities Administrators to ban DSC sales. Existing DSC redemption schedules for sales made prior to June 1, 2022 will be permitted to run their course.

Effective April 29, 2022, IA Clarington Investments Inc. was removed as sub-advisor.

Effective May 31, 2022, Series L, Series L5, Series L6, Series L8 and Series LX were closed to new purchases.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 12-month period ended March 31, 2023, the Fund did not pay brokerage commissions to iA Private Wealth Inc.

In order to avoid duplication of management fees, if a Fund invests directly in a Reference Fund managed by IA Clarington or an affiliate it may purchase Series I Securities (or the equivalent) of the Reference Fund and will not be charged a management fee or a fixed expense charge in respect of those securities. Alternatively, if Series I Securities (or the equivalent) are not purchased in these circumstances, we make sure that there is no duplication of management fees. In addition, if a Fund invests in another mutual fund, it will not pay duplicate sales charges or redemption fees with respect to the purchase or redemption by it of securities in the Reference Fund.

Certain of the Funds have established or may establish standard broker-dealer agreements with iA Private Wealth Inc., a subsidiary of Industrial Alliance and related company. Pursuant to applicable securities legislation, the Funds may rely on the standing instructions from the IRC with respect to one or more of the following transactions:

- (a) trades in securities of iA Financial Corporation Inc.;
- (b) investments in securities of issuers during, or for 60 days after, the period in which a related party dealer acts as an underwriter in the distribution of such securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund managed by IA Clarington.

The applicable standing instructions require that the above activities be conducted in accordance with IA Clarington policy and that IA Clarington advise the IRC of a material breach of any standing instruction. IA Clarington policy requires that an investment decision represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Funds.

1 The per unit data is derived from the Fund's audited annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.

2 Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3 Distributions were paid in cash/reinvested in additional units of the Fund, or both.

4 Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees, excluding HST, for the Fund were 2.16% for Series A, 1.95% for Series E, 1.95% for Series E5, 1.95% for Series E6, 0.95% for Series F, 0.95% for Series F5, 0.95% for Series F6, 0.95% for Series F8, 0.00% for Series I, 2.21% for Series L, 2.20% for Series L5, 2.29% for Series L6, 2.33% for Series L8, 2.20% for Series LX, 0.15% for Series O, 0.20% for Series P, 0.20% for Series P6, 2.15% for Series T5, 2.21% for Series T6, 2.21% for Series T8, 2.15% for Series X and 0.95% for ETF Series.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.

6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

7 Closing Market price for ETF Series is referenced from the closing market price on the last trading day of the period as reported on the Toronto Stock Exchange.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

The portfolio sub-advisor and investment strategies changed on February 23, 2015. These changes may have affected the Fund's performance.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
