Interim Management Report of Fund Performance

September 30, 2023

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1-800-530-0204, by writing to us at 522 University Avenue, Suite 700, Toronto, ON M5G 1Y7, or by visiting our website at www.iaclarington.com or SEDAR at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

IA Clarington Loomis Global Equity Opportunities Fund

September 30, 2023

Management Discussion of Fund Performance

The management discussion of fund performance for IA Clarington Loomis Global Equity Opportunities Fund (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 6-month period ended September 30, 2023. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

The Fund's Portfolio Manager is iA Global Asset Management Inc. ("iAGAM" or the "Portfolio Manager") and its Sub-Advisor is Loomis, Sayles & Company L.P. ("Loomis Sayles" or the "Portfolio Sub-Advisor" or the "fund manager").

Series EX, Series FX, and Series P of the Fund are closed to new investors. Investors who currently hold these series may purchase additional units. Series L of the Fund is closed to new purchases.

Results of Operations

The Fund's Net Assets increased by 9.5% or \$52.9 million during the period, from \$557.7 million on March 31, 2023 to \$610.6 million on September 30, 2023. This change in Net Assets resulted from an increase of \$31.2 million due to net sales, a decrease of \$0.1 million due to distributions and an increase of \$21.8 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 12.7% or \$66.9 million in comparison to the prior period, from \$528.2 million to \$595.1 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series A units of the Fund returned 3.3% for the six-month period ending September 30, 2023. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's benchmark, the MSCI AC World Index^A (CAD), returned 2.5% for the same six-month period. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

Robust equity market performance in the first three months of the period gave way to a flatter performance, leaving markets with low single-digit returns over the six-month period.

Markets were initially buoyed by excitement around artificial intelligence (AI), but the realization that interest rates would remain higher for longer began to pressure markets. A looming U.S. government shutdown also weighed on sentiment.

Energy was the best-performing sector as key producers cut their output and U.S. stockpiles declined. The communication services and information technology sectors posted more modest gains, while utilities, consumer staples and real estate sectors declined.

The Fund outperformed its benchmark over the period, owing in part to security selection in the communication services, industrials, financials and materials sectors. A lack of exposure to the utilities and real estate sectors also contributed.

The main three individual contributors to performance were NVIDIA Corp., Alphabet Inc. and Amazon.com Inc. NVIDIA created the world's first discrete graphics processing unit (GPU), and developments in AI are increasingly leveraging GPUs. Alphabet's shares rose following a period of underperformance, as investors had been concerned about Microsoft Corp.'s announcement to incorporate OpenAI Inc.'s technology into its search engine. Amazon.com outperformed as the company reported strong revenue and earnings despite the

inflationary environment, and its cloud-computing revenue growth exceeded market expectations.

The Fund's exposure to the health care sector was the largest detractor from performance, followed by its underweight exposure to the energy sector. The Fund's exposure to the information technology sector also detracted marginally from relative performance.

The three main individual detractors were Mettler-Toledo International Inc., The Estee Lauder Companies Inc. and LVMH Moët Hennessy Louis Vuitton SE. Shares of Mettler-Toledo, which makes weights, pipettes and other essential laboratory tools, underperformed as market participants weighed potential macroeconomic impacts to the company's growth trajectory. High-end beauty company Estee Lauder underperformed following a disappointing earnings report in the first half of the period, and the company lowered its guidance. Shares of LVMH, a global producer and distributor of luxury goods, underperformed. The company had reported positive second-quarter earnings in late July, but results were only slightly better than expectations.

New positions included Parker Hannifin Corp., a leading manufacturer of highly engineered motion and control products including components such as hydraulics, filtration, electromechanical and process control, for systems in aerospace, auto and equipment end-markets. The company rates highly across the fund manager's quality criteria. Trane Technologies PLC offers climate-control products for industrial, commercial and residential buildings, and its climate-control transportation solutions allow clients to ship perishable food and medicines. O'Reilly Automotive Inc. sells aftermarket automotive parts to both the do-it-yourself segment and professional service providers. The company has an extensive store and distribution network.

The fund manager increased and decreased positions within the Fund based on valuations and risk/reward profiles.

Eliminated positions included Estee Lauder owing to concerns regarding the company's ability to grow its intrinsic value. There has been significant erosion of the company's earning power with limited ability to forecast a path to recovery. Dassault Systemes SE offers a suite of design and simulation software to support product engineering and design processes. The holding was sold to fund positions that, in the fund manager's view, offered more attractive risk/reward opportunities.

Recent Developments

The fund manager anticipates global corporate profits could slip further in this challenging macroeconomic environment, but expects only a shallow decline in corporate profits and layoff announcements relative to recent cycles. Consumer confidence remains supportive of earnings.

In this uncertain backdrop, the fund manager remains focused on investing in quality companies that should be able to manage the current environment and generate longer-term value. Periods of volatility can create opportunities to build positions in high-quality companies at more attractive valuations.

Effective June 30, 2023, the Fund commenced offering Series E6 and E8 units.

Effective April 1, 2023, the Portfolio Manager changed from Industrial Alliance Investment Management Inc. to iA Global Asset Management Inc.

IA Clarington Loomis Global Equity Opportunities Fund

September 30, 2023

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 6-month period ended September 30, 2023, the Fund did not pay brokerage commissions to iA Private Wealth Inc.

In order to avoid duplication of management fees, if a Fund invests directly in a Reference Fund managed by IA Clarington or an affiliate it may purchase Series I Securities (or the equivalent) of the Reference Fund and will not be charged a management fee or a fixed expense charge in respect of those securities. Alternatively, if Series I Securities (or the equivalent) are not purchased in these circumstances, we make sure that there is no duplication of management fees. In addition, if a Fund invests in another mutual fund, it will not pay duplicate sales charges or redemption fees with respect to the purchase or redemption by it of securities in the Reference Fund.

Certain of the Funds have established or may establish standard broker-dealer agreements with iA Private Wealth Inc., a subsidiary of Industrial Alliance and related company. Pursuant to applicable securities legislation, the Funds may rely on the standing instructions from the IRC with respect to one or more of the following transactions:

- (a) trades in securities of iA Financial Corporation Inc.;
- (b) investments in securities of issuers during, or for 60 days after, the period in which a related party dealer acts as an underwriter in the distribution of such securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund managed by IA Clarington.

The applicable standing instructions require that the above activities be conducted in accordance with IA Clarington policy and that IA Clarington advise the IRC of a material breach of any standing instruction. IA Clarington policy requires that an

investment decision represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Funds.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

From capital gains	-	-	-	-	-	-
Return of capital	-	-	-	-	-	-
Total distributions³	-	-	-	-	-	-
Net Assets, end of period	9.35	8.95	8.95	-	-	-

- The per unit data is derived from the Fund's audited annual financial statements for prior periods, and from the interim unaudited semi-annual financial statements for the current period ended September 30, 2023. The Fund's financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.
- Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.
- Distributions were paid in cash/reinvested in additional units of the Fund, or both.
- Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees, excluding HST, for the Fund were 2.15% for Series A, 2.00% for Series E, 2.00% for Series E6, 2.00% for Series E8, 1.85% for Series EX, 1.00% for Series F, 1.00% for Series F6, 0.98% for Series FX, 0.00% for Series I, 2.15% for Series L, 0.24% for Series P, 2.15% for Series T6 and 2.15% for Series T8.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.

6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

The following is a breakdown of major services received by the Fund in consideration of the management fees for the period, as a percentage of the management fee:

Management Fees (%)		
Series	Trailer commissions	Other
Series A		
FE	53	47
LL First 3 years	26	74
LL After 3 years	53	47
DSC First 7 years	26	74
DSC After 7 years	53	47
Series E, E6, E8 and EX		
FE	57	43
Series F, F6 and FX	-	100
Series I	-	-
Series L		
ASC First year	-	100
ASC Year 2 and 3	26	74
ASC After 3 years	53	47
Series P	-	-
Series T6 and T8		
FE	53	47
LL First 3 years	26	74
LL After 3 years	53	47
DSC First 7 years	26	74
DSC After 7 years	53	47

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
