Management Discussion of Fund Performance

The management discussion of fund performance for IA Clarington Loomis Global Equity Opportunities Fund (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 6-month period ended September 30, 2021. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

The Fund's Portfolio Manager is Industrial Alliance Investment Management Inc. ("IAIM" or the "Portfolio Manager") and its Sub-Advisor is Loomis, Sayles & Company L.P. ("Loomis Sayles" or the "Portfolio Sub-Advisor" or the "fund manager").

Series EX, Series FX and Series P of the Fund are closed to new investors. Investors who currently hold these series may purchase additional shares.

Results of Operations

The Fund's Net Assets increased by 86.9% or \$246.8 million during the period, from \$284.1 million on March 31, 2021 to \$530.9 million on September 30, 2021. This change in Net Assets resulted from an increase of \$101.6 million due to fund mergers, an increase of \$121.5 million due to net sales, and an increase of \$23.7 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 152.2% or \$233.1 million in comparison to the prior period, from \$153.2 million to \$386.3 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series A units of the Fund returned 8.8% for the six-month period ending September 30, 2021. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's benchmark, the MSCI AC World Index^A (CAD), returned 7.1% for the same six-month period. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

Global equity markets were strong in the first half of the period, as COVID-19 vaccinations increased in many developed countries. Investors continued to support equities, with several indexes hitting record highs despite inflation and labour shortages emerging as risks to the economic outlook. Equity strength continued into second half of the period, but continued pandemic pressures, supply chain issues and developments in China prompted volatility in September. Global equities, as measured by the MSCI All Country World Index, gained 7.1% (in Canadian-dollar terms), with all sectors posting positive results. The energy, information technology and health care sectors had the strongest returns, while the utilities, consumer discretionary and materials sectors underperformed the broader market.

Stock selection in the health care sector was the Fund's largest contributor to performance, followed by the communication services and information technology sectors. Exposure to the consumer staples, materials and industrials sectors also contributed to performance. Top individual contributors included Danaher Corp., ASML Holding NV and Alphabet Inc.

Danaher's shares outperformed as a rise in COVID-19 cases increased demand for testing and vaccine supplies. The Fund also benefited from its acquisition of Aldevron LLC, a supplier of critical genomic components used to make next-generation cell and gene therapies, messenger RNA vaccines and gene-editing technologies. ASML benefited from the global chip shortage that

prompted governments to make investments in semiconductor production. Alphabet outperformed as improved COVID-19 vaccination rates drove consumer optimism. Despite the stock price rebound, the fund manager believes the market may still be underappreciating the extent of digital advertising market share gains during the pandemic.

Exposure to the consumer discretionary sector was the largest detractor from performance. Financials exposure also detracted from performance, as did a lack of direct exposure to the energy sector. The largest individual detractors from performance were Alibaba Group Holding Ltd., Farfetch Ltd. and Peloton Interactive Inc. Alibaba's shares underperformed along with the broader Chinese information technology sector as a result of increased regulatory actions by the Chinese government. Farfetch was affected by a moderation of the surge in online shopping seen in 2020. Peloton underperformed after it recalled one of its treadmills, while gyms and fitness studios also began reopening.

The fund manager added new positions in NVIDIA Corp. and Salesforce.com Inc. NVIDIA was purchased for its strong capital allocation and history of dividends, repurchases and select mergers and acquisitions, while maintaining a net-cash position. Salesforce was added for its leadership in achieving net-zero greenhouse gas emissions, as well as its pioneering model that compels the company to allocate 1% of its resources every year to support organizations that bring about social change.

Holdings in Becton, Dickinson & Co., Open Text Corp. and Parker Hannifin Corp. were eliminated from the Fund. Becton, Dickinson was sold amid concerns around its ability to generate organic revenue growth given ongoing pricing pressure from China, product development issues and underperformance from an acquired business. OpenText Corp. was sold as a result of the fund manager's concerns regarding its long-term organic growth trajectory. Parker Hannifin Corp. was sold as its valuation became less attractive relative to other opportunities.

Recent Developments

The economic outlook continues to depend on successful management of the pandemic on a global scale. The recent increase in vaccine production is positive, but with a lack of consensus on duration of antibodies and the potential for new variants, uncertainty persists. The outlook also relies on fiscal and monetary support in the U.S. and globally. Supply chain issues and inflation surprises remain risks.

The Fund holds a diverse group of information technology companies spanning digital payments, cloud storage and collaboration, and semiconductor manufacturing and equipment. The Fund has selective exposure to consumer-related companies, focusing on best-in-class ecommerce platform retailers and physical retailers with compelling value propositions. Health care exposure is focused on higher-growth areas in the industry, and the Fund has no direct exposure to energy or utilities. As the pandemic continues, there could be further volatility in global equities. However, the fund manager believes the Fund's holdings have sustainable competitive advantages and strong balance sheets that should prove resilient.

Effective April 30, 2021, the Fund commenced offering Series L, T6 and T8 units. Effective August 27, 2021, the Fund commenced offering Series EX, FX and P units. Effective August 27, 2021, the IA Clarington Global Opportunities Fund and the IA Clarington Global Opportunities Class (the Terminating Funds) merged into the IA Clarington Loomis Global Equity Opportunities Fund (the Continuing Fund). Pursuant to the merger, the Continuing Fund acquired the investment portfolio and other assets of the Terminating Funds in exchange for shares in the Continuing

IA Clarington Loomis Global Equity Opportunities Fund

September 30, 2021

Fund. The Continuing Fund did not assume the liabilities of the Terminating Funds.

Certain series of the Fund, as applicable, may make distributions which the Manager may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The Manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 6-month period ended September 30, 2021, the Fund did not pay brokerage commissions to iA Private Wealth Inc. (formerly, Industrial Alliance Securities Inc.), a subsidiary of Industrial Alliance.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

1 The per unit data is derived from the Fund's audited annual financial statements for prior periods, and from the interim unaudited semi-annual financial statements for the current period ended September 30, 2021. The Fund's financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.

2 Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3 Distributions were paid in cash/reinvested in additional units of the Fund, or both.

4 Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees net of waivers, if any, excluding HST, for the Fund were 2.15% for Series A, 2.00% for Series E, 1.85% for Series EX, 1.00% for Series F, 0.98% for Series FX, 0.00% for Series I, 2.15% for Series L, 0.24% for Series P, 2.15% for Series T6 and 2.15% for Series T8.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.

6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

The following is a breakdown of major services received by the Fund in consideration of the management fees for the period, as a percentage of the management fee:

Management Fees (%)		
Series	Trailer commissions	Other
Series A		
FE	53	47
LL First 3 years	26	74
LL After 3 years	53	47
DSC First 7 years	26	74
DSC After 7 years	53	47
Series E and EX		
FE	57	43
Series F and FX	-	100
Series I	-	-
Series L		
ASC First year	-	100
ASC Year 2 and 3	26	74
ASC After 3 years	53	47
Series P	-	-
Series T6 and T8	-	-

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption,

September 30, 2021

distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
