Interim Management Report of Fund Performance

September 30, 2023

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1-800-530-0204, by writing to us at 522 University Avenue, Suite 700, Toronto, ON M5G 1Y7, or by visiting our website at www.iaclarington.com or SEDAR at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

The management discussion of fund performance for IA Wealth Growth Portfolio (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 6-month period ended September 30, 2023. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

The Fund's Portfolio Manager is iA Global Asset Management Inc. ("iAGAM" or the "Portfolio Manager" or the "fund manager").

Series A, Series L, Series L5 and Series T5 are closed to new purchases.

Results of Operations

The Fund's Net Assets increased by 2.5% or \$4.2 million during the period, from \$164.8 million on March 31, 2023 to \$169 million on September 30, 2023. This change in Net Assets resulted from an increase of \$6.7 million due to net sales, a decrease of \$0.1 million due to distributions and a decrease of \$2.4 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 9.9% or \$15.3 million in comparison to the prior period, from \$154.9 million to \$170.2 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series B units of the Fund returned -1.7% for the six-month period ending September 30, 2023. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's broad-based benchmark, the MSCI World Index^A (CAD), returned 3% for the same six-month period. The comparison to this broad-based index has been provided to help you understand the Fund's performance relative to the general performance of the global equity market. The Fund's benchmark, which is composed of the 35% MSCI World Index^A (CAD), 28% FTSE Canada Universe Bond Index, 20% S&P/TSX Composite Index, 10% S&P 500 Index (CAD), 7% ICE BofA US High Yield Constrained Index (CAD Hedged), returned 0.2% for the same period. This comparison to Fund performance is more useful, because it more closely reflects the asset classes in which the Fund invests. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

The global economy surpassed forecasters' estimates and global markets have gradually turned more optimistic throughout the year, amid the dominant narrative that a recession can be avoided. Above-average inflation in food, gasoline, healthcare and shelter costs will inevitably lead to more consumer spending in nominal terms and fewer goods and services changing hands, which may lead to additional challenges to gross domestic product growth (Gross domestic product or GDP is the total dollar value of all goods and services a country produces over a specific time period).

The U.S. economy remained stronger than expected and, despite some concerns, certain data points began to show encouraging signs.

Canada's immigration policy has made its economy one of the most resilient among developed countries. Its current population growth rate is 3.1% year-over-year, the fastest pace since the baby boom of the 1950s and 1960s, which is almost entirely from international migration. However, this is exacerbating some problems such as high housing costs, making it increasingly difficult for institutions, such as the Bank of Canada, to fight inflation.

China's economic growth has disappointed since the economy reopened in January, and it has become evident that Chinese authorities appear more interested in implementing structural reforms than reaching aggressive short-term growth targets.

The European Central Bank has been dealing with persistent inflation that has fueled wage growth, while its main economic engine, Germany, may already be in a recession.

For the six months ended September 30, 2023, the S&P/TSX Composite Index, representing the Canadian equity market, returned -1.1%, with only the energy, healthcare and information technology sectors posting positive returns. Its U.S. counterpart, the S&P 500 Index, returned 5.1% (in Canadian dollars), led by the communication services, energy and information technology sectors. On the international equity front, The MSCI World Index and MSCI EAFE Index returned 3.0% and -1.4%, respectively, over the last six months in Canadian dollar terms.

In fixed-income markets, the FTSE Canada Universe Bond Index declined over the last two quarters. Rising interest rates affected longer-term bonds more significantly during the period, with the FTSE Canada Long Term Bond Index returning -8.9% compared to -0.9% for the FTSE Canada Short Term Bond Index.

The Fund's underweight position in Canadian equities contributed to performance, given the underperformance of the Canadian market relative to foreign equities. Top contributors included PIMCO Monthly Income Fund, IA Clarington Canadian Small Cap Fund and IA Clarington Strategic Corporate Bond Fund, as they all outperformed on a relative basis.

During the period, the Fund's positioning was relatively overweight in fixed income and underweight in equity funds, which detracted from performance, given that equities outperformed fixed income. The Fund's defensive positioning in U.S. equities also detracted from performance, as did its slight tilt towards sovereign bonds. Top detractors from performance included Dynamic Global Discovery Fund and IA Clarington Strategic Equity Income Fund, as both underperformed on a relative basis.

The fund manager tactically positioned the Fund to benefit from a rotation in market leadership, given the significant outperformance of the largest companies within the information technology sector. The fund manager also positioned the Fund to benefit from a rise in the U.S. energy sector, and dynamically managed the Fund's exposure to the Canadian and U.S. dollars.

Recent Developments

The Fund maintains an underweight position in equities with a cautious tilt, as well as a favourable inclination towards global markets versus the U.S. The fund manager believes that if central banks stay the course and keep interest rates higher for longer, it will be increasingly difficult to avoid a recession, which is the rationale for the Fund's relative overweight position in fixed income. The fund manager believes that the valuation gap between the U.S. equity indices and the rest of the world has become even more significant and that corporate earnings expectations may face negative revisions. Valuation refers to a measurement of how much an investment is worth. It is determined by analyzing a variety of factors, including financial statements and industry statistics.

Effective April 1, 2023, the Portfolio Manager changed from Industrial Alliance Investment Management Inc. to iA Global Asset Management Inc.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 6-month period ended September 30, 2023, the Fund did not pay brokerage commissions to iA Private Wealth Inc.

In order to avoid duplication of management fees, if a Fund invests directly in a Reference Fund managed by IA Clarington or an affiliate it may purchase Series I Securities (or the equivalent) of the Reference Fund and will not be charged a management fee or a fixed expense charge in respect of those securities. Alternatively, if Series I Securities (or the equivalent) are not purchased in these circumstances, we make sure that there is no duplication of management fees. In addition, if a Fund invests in another mutual fund, it will not pay duplicate sales charges or redemption fees with respect to the purchase or redemption by it of securities in the Reference Fund.

Certain of the Funds have established or may establish standard broker-dealer agreements with iA Private Wealth Inc., a subsidiary of Industrial Alliance and related company. Pursuant to applicable securities legislation, the Funds may rely on the standing instructions from the IRC with respect to one or more of the following transactions:

- (a) trades in securities of iA Financial Corporation Inc.;
- (b) investments in securities of issuers during, or for 60 days after, the period in which a related party dealer acts as an underwriter in the distribution of such securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund managed by IA Clarington.

The applicable standing instructions require that the above activities be conducted in accordance with IA Clarington policy and that IA Clarington advise the IRC of a material breach of any standing instruction. IA Clarington policy requires that an

investment decision represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Funds.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

Net Assets, end of period	7.95	8.30	9.17	9.67	8.16	9.59

1 The per unit data is derived from the Fund's audited annual financial statements for prior periods, and from the interim unaudited semi-annual financial statements for the current period ended September 30, 2023. The Fund's financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.

2 Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3 Distributions were paid in cash/reinvested in additional units of the Fund, or both.

4 Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees, excluding HST, for the Fund were 2.23% for Series A, 1.97% for Series B, 1.97% for Series B5, 1.92% for Series E, 1.92% for Series E5, 0.97% for Series F, 0.97% for Series F5, 0.00% for Series I, 2.23% for Series L, 2.23% for Series L5 and 2.23% for Series T5.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

IA Wealth Growth Portfolio

September 30, 2023

- 5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.
- 6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

The following is a breakdown of major services received by the Fund in consideration of the management fees for the period, as a percentage of the management fee:

Management Fees (%)		
Series	Trailer commissions	Other
Series A		
LL First 3 years	25	75
LL After 3 years	50	50
DSC First 7 years	25	75
DSC After 7 years	50	50
Series B and B5		
FE	56	44
Series E and E5		
FE	57	43
Series F and F5	-	100
Series I	-	-
Series L and L5		
ASC First year	-	100
ASC Year 2 and 3	25	75
ASC After 3 years	50	50
Series T5		
LL First 3 years	25	75
LL After 3 years	50	50
DSC First 7 years	25	75
DSC After 7 years	50	50

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
