Interim Management Report of Fund Performance

September 30, 2021

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1-800-530-0204, by writing to us at 522 University Avenue, Suite 700, Toronto, ON M5G 1Y7, or by visiting our website at www.iaclarington.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

The management discussion of fund performance for IA Wealth High Growth Portfolio (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 6-month period ended September 30, 2021. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

The Fund's Portfolio Manager is Industrial Alliance Investment Management Inc. ("IAIM" or the "Portfolio Manager" or the "fund manager").

Results of Operations

The Fund's Net Assets increased by 31.2% or \$10.3 million during the period, from \$33 million on March 31, 2021 to \$43.3 million on September 30, 2021. This change in Net Assets resulted from an increase of \$6.2 million due to fund mergers, an increase of \$2.5 million due to net sales, and an increase of \$1.6 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 24.8% or \$7.5 million in comparison to the prior period, from \$30 million to \$37.5 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series B units of the Fund returned 5.1% for the six-month period ending September 30, 2021. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's broad-based benchmark, the MSCI World Index[^], returned 8.6% for the same six-month period. The comparison to this broad-based index has been provided to help you understand the Fund's performance relative to the general performance of the global equity market. The Fund's benchmark, which is composed of the MSCI World Index[^] (40%), the S&P/TSX Composite Index (25%), the FTSE Canada Universe Bond Index (15%), the S&P 500 Index (15%), and the ICE BofA US High Yield Constrained Index (CAD Hedged) (5%) returned 7.5% for the same period. This comparison to Fund performance is more useful, because it more closely reflects the asset classes in which the Fund invests. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

During the period, the COVID-19 Delta variant spread quickly around the world. Data showed that vaccinations significantly reduce the risk of serious complications and death, but that other measures were still needed to avoid further lockdowns in certain economic sectors. The rise in inflation also made headlines. In Canada, total inflation at the end of the period was above 4% on an annual basis, compared to 5% in the U.S. Recently, the U.S. Federal Reserve Board announced that, if conditions remained favourable, it expects to gradually reduce its quantitative easing program during the fourth quarter until a possible end in the summer of 2022.

The Canadian economy performed well, partly as a result of its strong labour market. In this environment, interest rates have increased slightly, leading to some pressure on bond prices. Over the last quarter, the Canadian bond market, as measured by the FTSE Canada Universe Bond Index, returned -0.5%. Over the last six months, the same index returned 1.1%.

U.S. equities, as measured by the S&P 500 Index, gained 9.2% over the period (10.0% in Canadian dollars). Canadian equities, as measured by the S&P/TSX Composite Index, increased 8.7%. Global equities, represented by the MSCI

World Index, returned 8.2% for the period (8.6% in Canadian dollars), while international equities, as measured by the MSCI EAFE Index, rose 6.2% (5.5% in Canadian dollars). Emerging markets equities, as measured by the MSCI Emerging Markets Index, declined 2.9% (-2.5% in Canadian dollars).

The Fund generally held overweight allocations to foreign and Canadian equity underlying funds, and an underweight exposure to fixed-income funds, which contributed to performance, given the outperformance of equity markets relative to fixed-income markets. Select exposures to Canadian financials, through the use of exchange-traded funds (ETFs), also contributed to performance. An ETF, or exchange traded fund, is a security that trades openly on a stock exchange and represents an underlying basket of securities (frequently an index).

Top individual contributors to performance included IA Wealth Core Bond Pool and IA Clarington Canadian Small Cap Fund, as both outperformed on a relative basis. Within IA Wealth Core Bond Pool, an underweight exposure to federal bonds contributed to performance, as did security selection in mid- and long-term federal bonds. IA Clarington Canadian Small Cap Fund benefited from a lack of direct gold exposure and an underweight allocation to the healthcare sector. Manulife Global Equity Class Fund also contributed to performance.

The fund manager's equity risk-mitigation strategy on U.S. equity indices detracted from performance, as equity markets generated strong positive returns, especially in the second quarter of 2021. The Fund's overweight exposure to emerging market equities also detracted from performance. Top individual detractors included IA Clarington Thematic Innovation Class and IA Clarington Global Equity Fund.

The fund manager tactically adjusted the Fund composition during the period, and dynamically managed exposure to Canadian and U.S. dollars via positions on currency forwards. The fund manager used futures to increase exposure to gold, which added value. During the third quarter, IA Clarington Emerging Markets Bond Fund was terminated and is no longer held in the Fund. The fund manager used an ETF to gain exposure to emerging markets fixed income.

Recent Developments

Since late March 2020, U.S. equities, as measured by the S&P 500 Index, have nearly doubled in value (the fastest approximate 100% jump in the history of the index) and interest rates remain at historically low levels. The fund manager believes that current stock market valuations will likely leave many investors with the impression that the stock market has become speculative, and that a defensive position is necessary. Others will instead see the positive monthly returns of their portfolios accumulate and seek to take risks beyond their tolerance.

The Fund is neutrally positioned in both equities and bonds, with a slight overweight allocation to Canadian equities, offset by an underweight exposure to U.S. equities, which have become relatively more expensive.

Effective August 27, 2021, the Distinction Bold Class (the Terminating Fund) merged into the IA Wealth High Growth Portfolio (the Continuing Fund). Pursuant to the merger, the Continuing Fund acquired the investment portfolio and other assets of the Terminating Fund in exchange for shares in the Continuing Fund. The Continuing Fund did not assume the liabilities of the Terminating Fund.

Certain series of the Fund, as applicable, may make distributions which the Manager may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The Manager does not believe that the return of capital distributions made by such series of the

IA Wealth High Growth Portfolio

September 30, 2021

Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 6-month period ended September 30, 2021, the Fund paid \$0 (6-month period ended September 30, 2020 - \$74) in brokerage commissions IA Private Wealth Inc. (formerly, Industrial Alliance Securities Inc.), a subsidiary of Industrial Alliance.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

Net Assets, end of period	10.56	10.30	8.36	9.88	10.70	10.60

1 The per unit data is derived from the Fund's audited annual financial statements for prior periods, and from the interim unaudited semi-annual financial statements for the current period ended September 30, 2021. The Fund's financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.

2 Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3 Distributions were paid in cash/reinvested in additional units of the Fund, or both.

4 Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees net of waivers, if any, excluding HST, for the Fund were 2.26% for Series A, 1.99% for Series B, 1.99% for Series B5, 1.94% for Series E, 1.94% for Series E5, 0.99% for Series F, 0.99% for Series F5, 2.26% for Series L, 2.26% for Series L5 and 2.26% for Series T5.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.

6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

The following is a breakdown of major services received by the Fund in consideration of the management fees for the period, as a percentage of the management fee:

Management Fees (%)		
Series	Trailer commissions	Other
Series A		
LL First 3 years	25	75
LL After 3 years	50	50
DSC First 7 years	25	75
DSC After 7 years	50	50
Series B and B5		
FE	56	44
Series E and E5		
FE	57	43
Series F and F5		
	-	100
Series L and L5		
ASC First year	-	100
ASC Year 2 and 3	25	75
ASC After 3 years	50	50
Series T5		
LL First 3 years	25	75
LL After 3 years	50	50
DSC First 7 years	25	75
DSC After 7 years	50	50

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
