Management Discussion of Fund Performance

The management discussion of fund performance for IA Clarington Floating Rate Income Fund (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the 6-month period ended September 30, 2021. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

The Fund's Portfolio Manager is Industrial Alliance Investment Management Inc. ("IAIM" or the "Portfolio Manager") and its Sub-Advisor is Wellington Square Capital Partners Inc. (the "Portfolio Sub-Advisor" or the "fund manager"). The Fund's Sub-Sub-advisor is Wellington Square Advisors Inc.

Series P of the Fund is closed to new investors. Investors who currently hold this series may purchase additional units.

Results of Operations

The Fund's Net Assets increased by 6.4% or \$65.9 million during the period, from \$1,036.4 million on March 31, 2021 to \$1,102.3 million on September 30, 2021. This change in Net Assets resulted from an increase of \$63.4 million due to net sales, a decrease of \$21.3 million due to distributions and an increase of \$23.8 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 6.5% or \$66 million in comparison to the prior period, from \$1,021.3 million to \$1,087.3 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series A units of the Fund returned 1.8% for the six-month period ending September 30, 2021. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's benchmark, the Credit Suisse Leveraged Loan Index USD, returned 2.6% for the same six-month period. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

Financial conditions during the period, as measured by the Goldman Sachs U.S. Financial Conditions Index, were near the easiest levels on record, owing in large part to accommodative central bank actions. The price of assets, ranging from equities to safe-haven assets like government bonds, benefited from this environment.

U.S. 10-year Treasury yields ended lower overall despite a sharp increase in the final weeks of the period when the Federal Open Markets Committee announced that the tapering of their bond-buying program "may soon be warranted." Loan and bond prices increased during the period, adding to coupon income and providing investors with attractive total returns.

Default rates continued to decline. The loan default rate, including distressed exchanges, fell to 0.89% at the end of the period.

Individual contributors to performance included senior secured term loans issued by American Airlines (London Interbank Offered Rate [LIBOR] + 1.75%, 29/01/2027) as travel activity rebounded and the company bolstered liquidity through additional financing. The price of senior secured notes issued by PharmaCann LLC (12%, 30/06/2025) increased as investor demand in the sector caused new-issue spreads to meaningfully compress. The price of second-lien

secured notes issued by Cineplex Inc. (7.5%, 26/02/2026) gained in response to the reopening of cinemas.

Lack of interest-rate sensitivity prompted loans to underperform against their fixed-coupon peers, detracting from the Fund's performance. The Fund's lack of exposure to CCC-rated holdings and the commodity sector detracted as these were the best-performing segments of the loan market. Individual detractors from performance included senior secured term loans issued by Diamond Sports Group LLC (LIBOR + 3.25%, 24/08/2026) as prices declined notably after the company announced negotiations for a distressed exchange with loan and bond investors. Market participants were also awaiting news on the renewal of a significant contract. The price of senior secured term loans issued by Telesat LLC (LIBOR + 2.75%, 06/12/2026) declined owing to uncertainty around cash flows and impact of a new low-Earth-orbit satellite constellation.

Recent Developments

The fund manager believes that significant exposure to floating rate assets will benefit the Fund in an inflationary environment. The main tool that the U.S. Federal Reserve (the Fed) has for fighting inflation is raising the overnight rate, which will benefit the loan market.

The fund manager expects increased volatility as the market continues to grapple with higher costs, labour shortages in many sectors and the Fed's telegraphed intention to reduce the pace of its bond-buying program. The fund manager believes the Fund's positioning in higher-rated credit will protect the portfolio. The Fund's higher-yielding portfolio is positioned with the intention to offset inflation and generate a real return for unitholders.

Certain series of the Fund, as applicable, may make distributions which the Manager may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The Manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the

IA Clarington Floating Rate Income Fund

September 30, 2021

management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 6-month period ended September 30, 2021, the Fund did not pay brokerage commissions to IA Private Wealth Inc. (formerly, Industrial Alliance Securities Inc.), a subsidiary of Industrial Alliance.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

IA Clarington Floating Rate Income Fund

September 30, 2021

- The per unit data is derived from the Fund's audited annual financial statements for prior periods, and from the interim unaudited semi-annual financial statements for the current period ended September 30, 2021. The Fund's financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.
- Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.
- Distributions were paid in cash/reinvested in additional units of the Fund, or both.
- Dividends qualified for Canadian dividend tax credit, when applicable.

1 This information is provided as at each period shown.

2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.

3 The annual Management Fees and Fixed Administration Fees net of waivers, if any, excluding HST, for the Fund were 1.67% for Series A, 1.44% for Series E, 1.44% for Series E5, 0.84% for Series F, 0.84% for Series F5, 0.00% for Series I, 1.67% for Series L, 1.67% for Series L5, 0.19% for Series P, 1.67% for Series T5 and 0.84% for ETF Series.

4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.

5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.

6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

7 Closing Market price for ETF Series is referenced from the closing market price on the last trading day of the period as reported on the Toronto Stock Exchange.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

IA Clarington Floating Rate Income Fund

September 30, 2021

The following is a breakdown of major services received by the Fund in consideration of the management fees for the period, as a percentage of the management fee:

Management Fees (%)		
Series	Trailer commissions	Other
Series A		
FE	41	59
LL First 3 years	21	79
LL After 3 years	41	59
DSC First 7 years	21	79
DSC After 7 years	41	59
Series E and E5		
FE	48	52
Series F and F5		
	-	100
Series I		
	-	-
Series L and L5		
ASC First year	-	100
ASC Year 2 and 3	21	79
ASC After 3 years	41	59
Series P		
	-	-
Series T5		
FE	41	59
LL First 3 years	21	79
LL After 3 years	41	59
DSC First 7 years	21	79
DSC After 7 years	41	59

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
