Interim Management Report of Fund Performance

September 30, 2023

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1-800-530-0204, by writing to us at 522 University Avenue, Suite 700, Toronto, ON M5G 1Y7, or by visiting our website at www.iaclarington.com or SEDAR at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

The management discussion of fund performance for IA Clarington Global Dividend Fund (the "Fund") represents management's view of the significant factors and developments affecting the Fund's performance and outlook for the period since its inception to 6-month period ended September 30, 2023. IA Clarington Investments Inc. is the manager (the "Manager") of the Fund.

The Fund's Portfolio Manager is iA Global Asset Management Inc. ("iAGAM" or the "Portfolio Manager" or the "fund manager").

Results of Operations

The Fund's Net Assets increased by 765.4% or \$99.5 million during the period, from \$13 million on March 31, 2023 to \$112.5 million on September 30, 2023. This change in Net Assets resulted from an increase of \$100.4 million due to net sales, and a decrease of \$0.9 million due to investment operations, including market volatility, income and expense.

The average Net Asset Value of the Fund increased by 386.6% or \$43.3 million in comparison to the prior period, from \$11.2 million to \$54.5 million. Average Net Asset Value influence revenue earned and expenses incurred by the Fund during the period.

Series A units of the Fund returned 2.4% for the six-month period ending September 30, 2023. The performance of the other series of the Fund is substantially similar, save for differences in fees and expense structure. Refer to the "Past Performance" section for performance information of each series.

The Fund's benchmark, the MSCI World Index^A (CAD), returned 3.0% for the same six-month period. The Fund's return calculation for all series includes fees and expenses, which are not applicable in generating a return for the benchmark.

Over the period, the global economy outperformed the consensus of forecasters, and global markets gradually turned more optimistic through the year amid the dominant narrative that a recession (a significant decline in economic activity, typically defined as two consecutive quarters of declining gross domestic product) can be avoided. The above-average inflation witnessed in food, gasoline, health care and shelter costs could lead to more consumer spending in nominal terms, yet with fewer goods and services changing hands, may also create additional challenges to growth in gross domestic product.

The U.S. economy has remained stronger than expected and, despite some concern, there is recognition that certain data points are starting to show encouraging signs.

Canada's immigration policy has made its economy one of the most resilient among developed countries. Its current population growth rate is 3.1% year-over-year, the fastest pace since the baby boom of the 1950s and 1960s, which is almost entirely from international migration.

China's economic growth has disappointed since the economy reopened in January, and it has become evident that Chinese authorities appear more interested in implementing structural reforms than reaching aggressive short-term growth targets.

The European Central Bank has been dealing with persistent inflation that has fueled wage growth, while its main economic engine, Germany, may already be in a recession.

The S&P/TSX Composite Index, representing the Canadian equity market, generated a negative return for the last six months, with only the energy, health care and information technology sectors providing positive returns. The S&P 500 Index, representing the U.S. equity market, returned 5.1% (in Canadian dollars),

led by the communication services, energy and information technology sectors. On the international equity front, the MSCI World Index and MSCI EAFE Index returned 3.0% and -1.4%, respectively, over the last six months (in Canadian dollars, including foreign currency movements).

The Fund's security selection was the primary contributor to performance over the period, particularly within the financials, materials and industrials sectors. The Fund's U.S. equity allocation was also a key contributor to performance. Individual contributors included Broadcom Inc., a semiconductor manufacturing company based in California, as the company was considered one of the leaders in artificial intelligence and machine learning.

Security selection within the consumer discretionary and energy sectors detracted from performance, as did an overweight exposure to U.K. stocks. Individual detractors included Enbridge Inc., a Canadian multinational pipeline and energy company, as share prices declined during the period given a discounted common equity offering (refers to a company raising cash through stock issuance). The company was also negatively affected by rising interest rates, resulting in higher financing costs.

New positions included GRUMA SAB de CV, a Mexican multinational corn flour and tortilla manufacturing company. The fund manager believed that the stock had a valuation (a measurement of how much an investment is worth) advantage over peers in the consumer staples sector and expected the company to see margin growth (refers to the growth of a company's profits after expenses, expressed in a percentage) with commodities rolling over. Amazon.com, Inc., the information technology, e-commerce and cloud computing giant, was added as the fund manager believed the negative market sentiment (refers to the outlook of market participants as a whole) around Amazon Web Services was not fully warranted, creating an attractive opportunity.

Eliminated positions included Target Corp., an American discount department store company, as the fund manager anticipated lowered guidance (expectations of a forward-looking statement from company management on weaker future earning results) owing to a weakened consumer and increased incidents of thefts in stores.

Recent Developments

The fund manager sees a macroeconomic environment in which interest rates are likely to stay elevated for longer owing to persistent inflation and wage growth. These "higher-for-longer" interest rates (expectations for interest rates to be elevated for longer than expected) will likely continue to negatively affect companies' earnings, which may contribute to ongoing volatility in the global markets.

Therefore, the fund manager has increased (and will continue to increase) the Fund's weight in defensive sectors, to focus on companies that generate strong and defensible cash flows (refers to cash generation in excess of expenses) during tougher times, and that have consistent growth potential while generating attractive dividend yields.

Effective April 1, 2023, the Portfolio Manager changed from Industrial Alliance Investment Management Inc. to iA Global Asset Management Inc.

Related Party Transactions

The Portfolio Manager is affiliated with the Manager as they are both under common control of Industrial Alliance Insurance and Financial Services Inc. ("Industrial Alliance").

IA Clarington Global Dividend Fund

September 30, 2023

For the provision of management services, the Manager received management fees from the Fund, based on the average Net Asset Values of the respective series. The management fees paid are disclosed in the financial statements.

The Manager paid the operating expenses of the Fund (the "Operating Expenses") in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable.

The Manager pays the operating expenses of the Fund, other than Fund Costs, in exchange for the payment by the Fund of a fixed rate administration fee (the "Administration Fee") to the Manager with respect to each series of the Fund, except for Series I and Series V, if applicable. The expenses charged to the Fund in respect of the Administration Fee are disclosed in the Fund's financial statements. The Administration Fee is equal to a specified percentage of the net asset value of a series, calculated and paid in the same manner as the management fees for the Fund. The Fund's most recent simplified prospectus contains further details about the Administration Fee.

In addition to the Administration Fee, each series of the Fund is responsible for its proportionate share of certain other operating expenses ("Fund Costs"). Further details about Fund Costs can be found in the Fund's most recent simplified prospectus. The Manager, at its sole discretion, may waive or absorb a portion of a series' expenses. These waivers or absorptions may be terminated at any time without notice.

During the 6-month period ended September 30, 2023, the Fund did not pay brokerage commissions to iA Private Wealth Inc.

In order to avoid duplication of management fees, if a Fund invests directly in a Reference Fund managed by IA Clarington or an affiliate it may purchase Series I Securities (or the equivalent) of the Reference Fund and will not be charged a management fee or a fixed expense charge in respect of those securities. Alternatively, if Series I Securities (or the equivalent) are not purchased in these circumstances, we make sure that there is no duplication of management fees. In addition, if a Fund invests in another mutual fund, it will not pay duplicate sales charges or redemption fees with respect to the purchase or redemption by it of securities in the Reference Fund.

Certain of the Funds have established or may establish standard broker-dealer agreements with iA Private Wealth Inc., a subsidiary of Industrial Alliance and related company. Pursuant to applicable securities legislation, the Funds may rely on the standing instructions from the IRC with respect to one or more of the following transactions:

- (a) trades in securities of iA Financial Corporation Inc.;
- (b) investments in securities of issuers during, or for 60 days after, the period in which a related party dealer acts as an underwriter in the distribution of such securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund managed by IA Clarington.

The applicable standing instructions require that the above activities be conducted in accordance with IA Clarington policy and that IA Clarington advise the IRC of a material breach of any standing instruction. IA Clarington policy requires that an investment decision represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Funds.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods indicated. The information in the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average units outstanding during the period and all other numbers being based on actual units outstanding at the relevant point in time. Footnotes for the tables are found at the end of the Financial Highlights section.

1 The per unit data is derived from the Fund's audited annual financial statements for prior periods, and from the interim unaudited semi-annual financial statements for the current period ended September 30, 2023. The Fund's financial statements were prepared in accordance with International Financial Reporting Standards ("IFRS"). Under IFRS, the Net Assets per unit presented in the financial statements is the same as the Net Asset Value calculated for fund pricing purposes.

2 Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

3 Distributions were paid in cash/reinvested in additional units of the Fund, or both.

4 Dividends qualified for Canadian dividend tax credit, when applicable.

- 1 This information is provided as at each period shown.
- 2 Management expense ratios are based on total expenses (excluding distributions, commissions, withholding taxes and other portfolio transaction costs) and a proportion of underlying fund expenses (mutual funds & ETFs), where applicable, of each series for the stated period and are expressed as an annualized percentage of each series' daily average NAV during the period.
- 3 The annual Management Fees and Fixed Administration Fees, excluding HST, for the Fund were 2.00% for Series A, 1.90% for Series E, 1.90% for Series E6, 0.90% for Series F, 0.90% for Series F6, 0.00% for Series I and 2.00% for Series T6.
- 4 At its sole discretion, the Manager may have waived management fees or absorbed expenses of the Fund.
- 5 The trading expense ratio represents total commissions incurred directly or indirectly by way of an underlying fund, as applicable, and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV during the period.
- 6 The Fund's portfolio turnover rate indicates how actively the fund manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship or correlation between a high turnover rate and the performance of a Fund. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

Management Fees

Management fees paid by the Fund per series are based on applying the annual management fee rate per series to the daily average NAV of each series and are recorded on an accrual basis.

FE - front end; LL - low load; DSC - deferred sales charge; ASC - advisor service charge
Other - includes general administration, investment advice and profit.

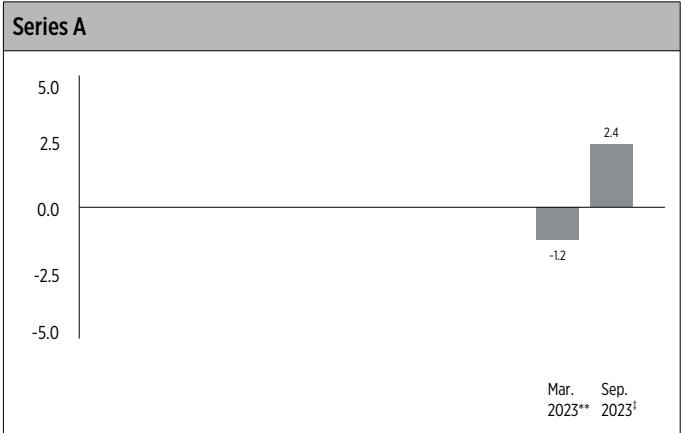

Past Performance

The performance information shown (based on NAV) assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

The Fund began distributing securities on February 6, 2023 and in accordance with regulatory requirements, no annual compound returns will be shown for the Fund until twelve months after the date of inception.

Year-by-Year Returns

The bar charts show the Fund's performance for each of the periods indicated. The charts show, in percentage terms, how an investment made on the first day of each period would have increased or decreased by the last day of the period presented.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements which reflect the current expectations of the Manager (or, where indicated, the Portfolio Manager or Portfolio Sub-Advisor or fund manager) regarding the Fund's future growth, results of operations, performance and business prospects and opportunities. These statements reflect the current beliefs of the person to which the statements are attributed with respect to future events and are based on information currently available to that person. Forward looking statements involve significant risks, uncertainties and assumptions. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, changes in government regulations or in tax laws. Please refer to the prospectus for a discussion of some specific risks that are associated with mutual funds. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements.
